

1 **Re: Page B-217, Safety Hazards Removal, \$252,300**

2 Q. Will any of the issues identified in this program be dealt with in the
3 Installation of Fall Arrest Equipment outlined on B-162?

4

5

6 A. No they will not. Although both address safety issues, the Installation of Fall
7 Arrest Equipment project (B-162) is a specific and distinct project and does
8 not form part of the work intended to be undertaken in association with the
9 Safety Hazards Removal project (B-217), which is an amount to fund safety
10 issues that will be specifically determined in 2008, as they arise.
