

1   **Re: Page B-89, Replace Line Camp 98 – TL-228**

2   Q.   How was this building in particular, as well as the other survival buildings,  
3       reported in Hydro's process review "to match financial records with  
4       equivalent records" (Transcript, Oct 16, 2003, p.65/10)?

5

6

7   A.   This building, as well as other survival buildings, was placed in the asset  
8       hierarchy within the transmission line where they were located. If there was  
9       a financial record and an equipment record, they were combined into one.
