

1 Q. Re 2011 Capital Plan Section, pages 22 -23, "Holyrood Projects in a No Infeed

2 Scenario:

3 If the Infeed is achieved within a 2015-2016 time frame, is it expected by Hydro that
4 the Stack Emissions Cleanup Equipment costs, estimated at \$570 million dollars, or
5 any part of those costs, will need to be incurred?

6

7

8 A. If the Infeed is achieved within a 2015-2016 time frame, Hydro does not expect to
9 incur any costs related to Stack Emissions Cleanup Equipment.
