

1 Q. Re 2011 Capital Plan Section, pages 22 -23, "Holyrood Projects in a No Infeed

2 Scenario:

3 If the Infeed is delayed beyond a 2015-2016 time frame, by when is it expected by
4 Hydro that the Stack Emissions Cleanup Equipment costs, estimated at \$570 million
5 dollars, or any part of those costs, will need to be incurred?
6
7

8 A. If the Infeed is delayed beyond a 2015-2016 time frame, Hydro does not expect to
9 incur any costs related to Stack Emissions Cleanup Equipment until a definite
10 completion date for the Infeed is established and the implications of such a delay
11 can be fully assessed.
