

1 Q. **Re 2011 Capital Plan - Individual Capital Projects:**

2 **Project B-22, Upgrade Unit 1 Forced Draft Fan Ductwork:** With reference to IC-
3 NLH-13 and to Volume I, Tab 9, pages 10-11, section 4.3, provide a CBA and
4 Cumulative Present Worth (CPW) for Alternatives 1 and Alternative 2 based on any
5 changes in applicable assumptions and considerations arising from Holyrood being
6 in standby mode for the period 2016-2020.

7

8

9 A. There are no changes to applicable assumptions and considerations arising from
10 Holyrood being in standby mode for the period 2016-2020. During this period,
11 Holyrood may be required to continue operating as a generation facility with a
12 capacity factor for that time period at least as large as what will be experienced in
13 the 2010-2016 time period.
