

1 Q. **Re: HRD - Install Operator Training Simulator (Tab 5)**

2 At page 6, Hydro outlines that 228 tasks are currently performed directly on the
3 unit control board. A training simulator would allow the employee or trainee to
4 perform these tasks” ...without having to wait for the availability of a console and to
5 perform such tasks without placing any risk on actual equipment or inadvertently
6 causing an outage.” Section 3.5 at page 8 indicates that there have been no outages
7 attributed to the operator training program. Please provide all incidents in the past
8 10 years where equipment was damaged by trainees using the unit control board.

9
10

11 A. There are no recorded incidents of equipment damaged by trainees using a unit
12 control board. For information related to outages and operator action, please refer
13 to the response to P2-CA-NLH-24.
