

1    Q.    **Re: B-7, Upgrade Marine Terminal – Holyrood \$5,859,600 in 2012**

2            When issuing the Terms of Reference for the 10 Year Life Extension Study of the  
3            Holyrood Marine Terminal was consideration given to requesting that the study  
4            provide only the minimum requirements needed to maintain the Marine Terminal  
5            until the year 2020? If so, please provide documentation of this constraint.

6

7

8    A.    The Terms of Reference for the 10 Year Life Extension Study was issued verbally to  
9            Hatch after the announcement that Nalcor would be proceeding with the Labrador  
10          Infeed. As per the Letter of Understanding attached to the response to P2-PUB-  
11          NLH-24, dated December 23, 2010, the work included a review of the work  
12          completed to date and development of the least cost options required to provide  
13          safe docking of tankers to the terminal over the ten-year period.
