

1 Q. **Re: AMEC Report**

2 What is the estimated cost to implement each of the AMEC recommendations?

3

4

5 A. Hydro does not have a cost estimate to implement each of the AMEC  
6 recommendations as listed in Section 15 of the AMEC report. The AMEC report  
7 provides high level cost estimates to perform the recommendations related to the  
8 Level 2 condition assessment, as provided in Section 12 of the AMEC report. It was  
9 not part of AMEC's scope of work to develop estimates for the other items, notably  
10 those related to new capital installations or spare part purchases. Hydro has  
11 developed cost estimates for many of the recommendations related to new capital  
12 installations. They are provided as part of the 2012 Capital Application to the Board.  
13 (For additional information, please refer to pages A6, A7 and B2 of the 2012 Capital  
14 Plan Section of Application.)
