

1 Q. **2012 Capital Plan**

2 What are Hydro's long-term plans to manage its resources given that it foresees a
3 significant decrease in spending after 2016?

4

5

6 A. As stated in the responses to PUB-NLH-11, PUB-NLH-23, and PUB-NLH-24, a

7 significant portion of spending will be on materials and contract work, which will

8 not require management after the largest projects are in service. The capital plan

9 will be subject to revision once the decision is made on the Labrador

10 interconnection to the Island, and the long-term capital plan is under review. Hydro

11 does not anticipate major resource issues after 2016.
