

1 Q. **B-36, Perform Wood Pole Management Program, \$2,513,300**

2 Why isn't Hydro seeking approval of this project as a multi-year project?

3

4

5 A. The Wood Pole Management Program would be considered a repeating project
6 rather than a multi-year project. Work execution would occur on an annual basis,
7 with the project completed and closed out of work in progress and assets set up in
8 the financial records and depreciated. Generally, these types of projects are
9 submitted on an annual basis following previous assessments in order to be
10 responsive to changes in scope or costs.
