

1 Q. Does Hydro agree that the Board should evaluate these projects in the context of  
2 Hydro's other Holyrood-related projects in its 2012 Capital Budget Application?

3

4

5 A. No, Hydro does not agree. With consideration to the present condition of the assets  
6 in question and Hydro's availability of resources to complete planning, design and  
7 tendering of the work in 2011, Hydro believes that these projects need to be  
8 decided as soon as possible and not delayed pending the results of the 2012 Capital  
9 Budget Application. Please see responses to IC-NLH-1 and CA-NLH-1.
