

1 Q. Re: Account T05: Please provide a detailed description of the various assets and
2 corresponding cost of each set forth in Account T05 – Transformers, including all
3 information and documentation the Company believes is significant or meaningful
4 to the determination of life characteristics. The description should include the
5 number, voltage, size, date of installation and corresponding cost of each
6 transformer. Further, provide all reasons and justification, including all documents
7 that support any position that an average service life greater than 55 years (e.g., 60
8 or 65 years) is not appropriate.

9
10

11 A. Please see CA-NLH-136 Attachment 1. This account was analyzed in total, rather
12 than on an asset by asset basis, and the asset specific data was therefore not a
13 consideration. Available characteristics of specific assets are included in the
14 description of the asset.

Below is a list of all assets in Account T05 - Transformers that were included in the data list used for Gannett's depreciation study.

Asset Number	Description	Asset Cost Object	Start Depr	Cost Net of CIAC	UOP Desc
