

1 Q. [Account W01 - Water Regulating Structures] - In CA-NLH-150, a statement is made
2 that operating staff indicated that a life of approximately 45 to 55 years should be
3 used as it applies to investment in Account W01 - Water Regulating Structures. At
4 this time, please identify where such statement is contained in response to CA-NLH-
5 12.

6

7

8 A. There is no reference to Water Regulating Structures in the summarized notes
9 provided in response to CA-NLH-12. The notes provided in CA-NLH-12 Attachment
10 1 were taken during the meetings referenced. In addition, the notes providing
11 comments on specific issues arising from a review of the recommended parameters
12 for all accounts were provided on an account by account basis in the response to
13 CA-NLH-19. It is also noted that discussions with the Vice President – Operations
14 did include discussion of the life expectations related to Hydro Dams, Gates and
15 Hoists etc.
