Mr. Larry E. Kennedy
Vice President
Gannett Fleming Canada ULC
Suite 277, 200 Rivercrest Drive, SE
Calgary, AB T2C 2X5

Dear Larry:

I have considered your questions regarding the identification of client information related to the specific average service life estimates that you have provided in response to the Request for Information CA-NLH-156 in the current NL Hydro proceeding before the Newfoundland Public Utilities Board. As you know, it is Gannett Fleming's intention to be fully responsive to Requests for Information; however, I must ensure that the release of client information does not comprise the clauses related to confidentiality that we have with many of our clients. Also, as you are aware, effective in January of this year, Gannett Fleming issued a directive that only the information as already provided in the Response to Information Request CA-NLH-156 will be provided in response to requests in Public Hearings.

Based on our conversation, I understand that this has become an issue in the current NL Hydro proceeding, and I have given this issue further consideration. We have historically provided a spreadsheet that identifies the average service life estimates by specific client. However, this information has been used by parties causing potential harm to our clients to the extent that we feel that our contractual agreements with clients may be compromised. Furthermore the prior version of the Gannett Fleming compiled information has been entered into other proceedings by interveners as their work product, without our prior consent and knowledge. As such, Gannett Fleming will not enter the information as requested into this or any future proceeding. To do so, will place Gannett Fleming in breach of its contractual agreements.

Please be advised that you are expressly prohibited by Gannett Fleming management to release any level of detail that will identify the life estimates by client. Also, please advise all parties in this, or any future proceeding, that any copies of any prior, more specific version, of the information that was provided in response to the request for information CA-NLH-156, should be destroyed and any public release of the information is expressly prohibited by Gannett Fleming. Furthermore, the release of any prior versions of this database by any party will be considered as an unauthorized release of a Gannett Fleming work product, and will be dealt with accordingly.

Very truly yours,
