

1 Q. Explain the types of assets collected at an asset recovery yard. What is the purpose  
2 of an asset recovery yard?

3

4

5 A. Hydro's asset recovery yard, internally referred to as salvage stores, is located in  
6 Bishop's Falls. As materials and assets are removed from service, or otherwise  
7 identified as no longer useful in the provision of power and electricity, they are  
8 typically sent to salvage stores to await disposition, typically either through  
9 refurbishment or public auction.
