

1 **Q. In making the recommendation for a 23-L4 lowa curve; please provide the specific**
2 **weighting utilized by Mr. Pous for each factor considered in the development of the**
3 **recommended lowa curve.**

4
5 **A.** Mr. Pous did not assign specific weighting to each item of information considered, however,
6 he did consider factors such as longer life expectations resulting from actuarial results and
7 the fact that a very limited amount of the investment is associated with the shorter-lived
8 assets referenced by Hydro personnel.
