

Undertaking 50

Undertaking to provide information with respect to the people who have left Hydro to go to the Lower Churchill Project, either being seconded directly or those who took another position.

The following table provides information with respect to the positions that have left Hydro to go to the Lower Churchill Project, including the date of transfer. Three of the people who transferred have since retired or returned to Hydro (noted as inactive). The Manager Engineering – LCP role was restructured to the Tech. & Design Integrity Manager and assumed by the individual occupying an Electrical Lead position. The Electrical Lead position was subsequently filled.
