11 **IN THE MATTER OF**

12 an application by Newfoundland and Labrador Hydro
13 pursuant to Sections 70 and 76 of the Act for approval
14 of the Rate Stabilization Plan rules and components of
15 the rates to be charged to Industrial Customers.

**PUBLIC UTILITIES BOARD
REQUESTS FOR INFORMATION**

PUB-NLH-21 to PUB-NLH-22

Issued: September 5, 2013

1 **PUB-NLH-21** In the response to PUB-NLH-17 Hydro provided information concerning a
2 forecast increase in load for years subsequent to the test year. Since the problems
3 experienced with the load variation component of the Rate Stabilization Plan
4 appear to result from a significant decrease in load from that forecast for the test
5 year, please provide a comparison of the same scenarios set out in PUB-NLH-
6 17, showing a significant reduction in forecast load for 2014, 2015 and 2016
7 from that forecast for the 2013 test year. Please set out all assumptions used.
8
9

10 **PUB-NLH-22** Please provide an explanation of the results found in the response to PUB-NLH-
11 21 and explain how and why they are different from those found in the response
12 to PUB-NLH-17.

DATED at St. John's, Newfoundland this 5th day of September, 2013.

BOARD OF COMMISSIONERS OF PUBLIC UTILITIES
