

1 Q. (RSP Evidence, page 13, Section 5.0) What benefit is gained from including this
2 section relating to allocation of the load variation component of the RSP on the
3 basis of load ratio share if the overall RSP design is to be reviewed as part of the
4 GRA?

5

6

7 A. Hydro now proposes that the matter relating to allocation of the load variation
8 component of the RSP be deferred to be considered in Hydro's General Rate
9 Application, as indicated in the response to PUB-NLH-1.
