

1 Q. (RSP Application, CA-NLH-7, Attachment 2) Please confirm that the rates and  
2 revenues shown in Attachment 2 are an accurate reflection of what would have  
3 transpired had IC rates not been frozen and the load variation component of the  
4 RSP had been assigned on the basis of load ratio share as proposed by Hydro in this  
5 GRA.

6  
7  
8 A. It is confirmed that the rates and revenues shown in CA-NLH-7, Attachment 2,  
9 reflect the impacts of having no IC RSP rate freeze as well as the load variation  
10 methodology change as proposed by Hydro.
