

1 Q. OC 2013-089 dated April 4, 2013 states that "Effective on this date [originally July 1,
2 2013, subsequently changed to September 1, 2013] rate increases for island
3 industrial customers will be phased in over a three year period...". Hydro is
4 proposing by this Application that effective September 1, 2015 all island industrial
5 customers will be charged the base rates approved by the Board, effectively
6 bringing the phase-in to an end. Please explain how Hydro's proposal to complete
7 the phase-in effective September 1, 2015 is in compliance with the OC 2013-089
8 direction "that rate increases for island industrial customers will be phased in over a
9 three year period".
