Dear Mr. Dumaresque:

Re: Newfoundland and Labrador Hydro Application for approval of a capital project to supply and install 100 MW of combustion turbine generation – Process

In relation to your letter of September 10, 2014 the Board advises that its review and investigation of the issues in this proceeding is ongoing.

The Board recently scheduled dates for a further round of Requests for Information (RFIs) and responses. Upon receipt of the responses to the RFIs the Board will determine the next steps required to make a determination on the issues, including whether a hearing will be necessary.

The Board normally requests submissions from the parties at the completion of the information gathering stage. You will be provided an opportunity at that time to make further submission on the issues.

If you have any questions, please do not hesitate to contact the undersigned.

Yours truly,

Cheryl Blundon
Board Secretary
