

1 Q. Please indicate when and how you became aware of the investigation by US
2 authorities into ProEnergy Services and what due diligence did you do upon
3 learning of this matter.
4
5

6 A. Hydro followed a rigorous procurement process for the purchase of the 120 MW
7 combustion turbine to be installed at the Holyrood plant. This process included
8 following the *Public Tender Act*, ensuring technical and commercial compliance with
9 contract terms and conditions, reference checks on the successful bidder, and a
10 comprehensive due diligence review, including a review of audited financial
11 statements.
12

13 Through the due diligence process, Hydro became aware of potential investigations
14 of Pro Energy Services. Hydro has met with senior officials from Pro Energy Services
15 and has been informed by the company that they will cooperate fully with all
16 regulatory and legal inquiries. Hydro is confident in Pro Energy Services' ability to
17 continue to meet the terms and conditions of the contract for the combustion
18 turbine.
