

1 Q. On page 34 of the Report the installed cost per MW of various unit sizes is provided.
2 When was this costing information prepared and did Hydro analyze other options,
3 including the cost per MW of an aftermarket 60 MW unit? If yes, provide the cost of
4 all options reviewed. If no, why not?

5

6

7 A. The costing information on page 34 of the Report covering the installed cost per
8 MW of various unit sizes was prepared over the period Q3 2013 to Q2 2014. Hydro
9 did not analyze any other options. An aftermarket 60 MW unit was not available
10 during the time period of the costing information preparation.
