

- 1 Q. The final paragraph of page 6 of the Report entitled "*Supply and Install 100 MW*
2 *(Nominal) of Combustion Turbine Generation*", April 10, 2014, discusses Customer
3 Demand Side Alternatives to a Combustion Turbine, stating: "*Therefore, while*
4 *industrial customer interruptible arrangements are important reliability*
5 *enhancements which will complement turbine installation, they are not substitutes.*"
6 Please confirm if it is Hydro's intent to have interruptible contracts in place with all
7 willing industrial customers by December 1, 2014? If so, please outline the
8 discussions held with each of the five industrial customers and provide an update
9 on the status of the discussions with each. If it is not Hydro's intent to secure such
10 interruptible contracts within this time frame, please provide an explanation as to
11 why Hydro has elected not to proceed with these alternative capacity
12 arrangements.
