

1 Q. On Page 20 of 20 to Appendix B of Hydro's *Replace T5 Tap Changer Western Avalon*
2 *Terminal Station* report, ABB recommends adding a diaphragm to the transformer's
3 oil conservator. Is Hydro adding a diaphragm to the conservator? If not, please
4 explain.

5

6

7 A. Hydro is reviewing this recommendation and has received some preliminary
8 information from the Original Equipment Manufacturer, CG Global. Further
9 discussion and information exchange is required and a decision is expected by July
10 31, 2014.
