

1    Q.    **Tab 18, Wood Pole Line Management, Various Sites**

2            Hydro outlines at p. 5 that it is seeking to have two full inspection cycles which will  
3            be required to provide adequate statistical evidence. This project has been ongoing  
4            for a significant period of time; how long does Hydro foresee it taking to have two  
5            complete inspection cycles?

6

7

8    A.    The Wood Pole Line Management Program is based on a ten year cycle of  
9            inspection. It will take 20 years for two inspection cycles, which will be complete  
10          in 2023.
