

1 Q. **Project C-40, Replace Disconnect Switches**

2 On page 11 of the report filed at Volume II, Tab 17, Hydro states that its approach
3 to the disconnect replacement program is consistent with the utility industry
4 practice. Please provide support for this statement.

5

6

7 A. Many utilities within North America have implemented programs to replace aging
8 disconnect switches. For example Hydro One, AltaLink, and Bonneville Power
9 Administration (BPA) have implemented programs for disconnect replacements.
