

1 Q. **Project C-44, Refurbish Anchors and Footings**

2 On page 7 of the report filed at Volume II, Tab 19, Hydro states that a detailed
3 environmental assessment will be performed prior to completing the work. Please
4 advise when such environmental assessment will be performed and the anticipated
5 date that Hydro will be in receipt of a report in respect of that assessment.

6

7

8 A. In order to maintain the construction schedule of July to August, the environmental
9 assessment will be scheduled to be completed from May 2014 to June 2014. Hydro
10 anticipates being in receipt of the assessment report by the middle of June 2014, so
11 that any site specific requirements can be incorporated into the field work.
