

1    Q.    **Project C-44, Refurbish Anchors and Footings**

2            On page 13 of the report filed at Volume II, Tab 19, the project schedule shows that  
3            the refurbishment will take place from Bay d’Espoir to structure number 80 in 2014  
4            and then from structure number 83 to Sunnyside in 2015. Provide a breakdown of  
5            how many anchors will be replaced in each year.

6

7

8    A.    There are 52 anchors that have been identified which require replacement. The  
9            plan is to replace 26 anchors in 2014 and the remaining 26 anchors in 2015.
