

1 Q. **Project C-64, Additions to Accommodate Load Growth**

2 On page 11 of the report filed at Volume II, Tab 24, Hydro states that construction
3 of the new 1,200 square meter multi-purpose facility is expected to start by the
4 spring of 2013. Has construction commenced for this facility? When is the facility
5 expected to open?

6

7

8 A. Hydro has been informed by the owner that the ground work for the multi-purpose
9 facility has commenced and will be completed in 2013 and the structure is now
10 expected to be erected and closed in by the end of 2014.
