

1 Q. Volume I, Tab Holyrood Overview, page 6: Hydro states that: *"During the*  
2 *standby phase, it is assumed that the plant will produce 20 GWh in each year to*  
3 *test the units to ensure that they are available if required."*

4 Can the Holyrood Thermal Generating Station continue to operate for emergency  
5 use after 2021? If yes, please provide a copy of any plan that has been drafted for  
6 its continued use. If no, please explain why not.

7

8

9 A. Hydro does not plan to use the Holyrood Thermal Generating Station for emergency  
10 use after 2021. Hydro will file with the Board applications and information required  
11 to support such a decision at the appropriate time. Please also see the response to  
12 PUB-NLH-4.
