

1     **Q.     C-11; Volume I, Tab 4: Upgrade Shoreline Protection – Cat Arm:**

2             Is the 80 m section of road embankment near the Cat Arm powerhouse at Devil's  
3             Cove, included in this application, also included in the application for Crown  
4             Easement reported by Hydro in the Application for Approval of Supplemental  
5             Capital Projects filed with the Board on July 23, 2012?

6

7

8     **A.**     While the majority of the 80m section of road embankment near the powerhouse  
9             at Devil's Cove is included in the application for Crown Easement there are small  
10            portions of the embankment, along the shoreline, which fall outside of the 30  
11            meter easement boundary on the seaward side of the roadway.

12

13            Hydro has discussed with Crown Lands the option of amending the original Crown  
14            Easement application, to incorporate all portions of the roadway embankment  
15            requiring shoreline protection upgrades. If required, the application for  
16            amendment will be filed once the shoreline protection design layout is finalized in  
17            2014.
