Volume 1, Section 3 – Finance

Q. In the manner set out at page 15 of Grant Thornton's February 4, 2003 Financial Consultant's Report in respect of NP's 2003 GRA, compare NP's actual revenues for 2002 to 2006 to revenue forecasts as proposed by NP for 2007 and 2008.

A. Table 1 is a summary of actual and forecast revenue for the period 2002 to 2008. Rate Stabilization Adjustments (“RSA”) & Municipal Tax Adjustments (“MTA”) charges are not included.

Table 1
Revenue from Rates
Excludes RSA & MTA
(\$000)

Rate Category	Actual					Forecast	Proposed
	2002	2003	2004	2005	2006 ¹	2007 ²	2008
Residential	\$216,375	\$224,263	\$236,087	\$243,852	\$244,121	\$287,731	\$303,191
General Service							
0-10 kW	10,825	10,906	11,300	11,510	11,269	12,337	12,452
10-100 kW	47,450	48,738	51,160	52,853	53,343	62,753	63,201
110-1000 kVA	54,370	56,687	59,707	61,037	60,261	71,852	73,188
Over 1000 kVA	20,944	22,186	23,570	24,280	24,556	29,614	30,782
Street & Area Lighting	10,713	10,995	11,343	11,524	11,658	12,217	12,642
Forfeited Discounts	2,095	2,319	2,410	2,541	2,481	2,664	2,770
Revenue From Rates	\$362,772	\$376,094	\$395,577	\$407,597	\$407,689	\$479,168	\$498,226
% Change	2.78%	3.67%	5.18%	3.04%	0.02%	17.53%	3.98%
Revenue Deferral Amortizations ³					3,086	2,714	8,572
Total Revenue	\$362,772	\$376,094	\$395,577	\$407,597	\$410,775	\$481,882	\$506,798

The year over year changes in revenues are due to a number of factors including changes in rates, changes in sales and changes in average usage patterns.

¹ Beginning in 2006, the Company adopted the accrual method of revenue recognition as approved in Order No. P.U. 40 (2005).

² Includes an RSA Shortfall adjustment which represents the difference in the increase in revenue and the increase in purchase power cost resulting from the change in the wholesale rate charged by Newfoundland and Labrador Hydro effective January 1, 2007 as per Order No. P.U. 42 (2006).

³ In Order Nos. P.U. 40 (2005) and P.U. 39 (2006), the Board approved the amortization of the 2005 Unbilled Revenue to offset income taxes in 2006 and 2007 arising from the 2005 Tax Settlement. In its 2008 Application, the Company is proposing to amortize revenue deferrals of \$8.6 million. See the Company's Amended Application for the details on the proposed amortizations of revenue deferrals in 2008.

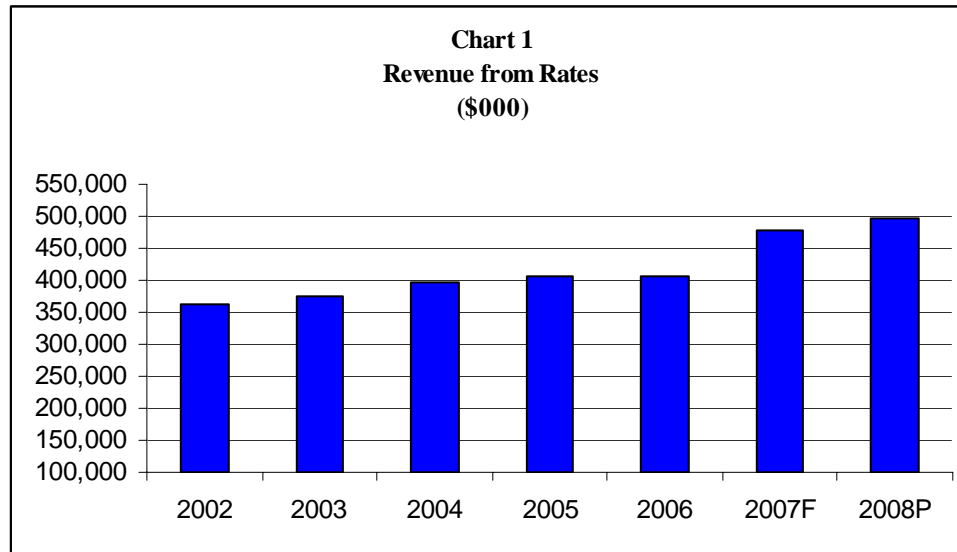

1 Summary explanations for the year over year changes in revenue shown in Table 1 are:
2

- 3 1. 2002 - The 2.78% increase in revenue is the result of customer and sales growth
4 along with a September 1, 2002 rate increase resulting from the 2001 Hydro
5 general rate application offset by the rate decrease effective January 1, 2002
6 resulting from the operation of the Automatic Adjustment Formula;
7
- 8 2. 2003 - The 3.67% increase in revenue for 2003 is a combination of customer and
9 sales growth along with the impact of the September 1, 2002 rate offset by the
10 August 1, 2003 rate decrease resulting from the 2003 NP general rate application;
11
- 12 3. 2004 - The 5.18% increase for 2004 is a combination of customer and sales
13 growth along with the impact of the July 1, 2004 rate increase resulting from the
14 2003 Hydro general rate application;
15
- 16 4. 2005 - The 3.04% growth for 2005 is a combination of customer and sales growth
17 along with the impacts of the July 1, 2004 rate increase offset by a rate decrease
18 effective January 1, 2005 resulting from the operation of the Automatic
19 Adjustment Formula;
20
- 21 5. 2006 - The .02% growth in revenue for 2006 is primarily the result of customer
22 growth offset by small negative sales growth;
23
- 24 6. 2007 - The 17.5% forecast growth in revenue for 2007 is a combination of
25 customer and sales growth along with the impact of the January 1, 2007 rate
26 increase; and
27
- 28 7. 2008 - The 4.0% forecast growth in revenue for 2008 is a combination of
29 customer and sales growth along with the impact of the January 1, 2008 proposed
30 rate increase.

Table 2 is a summary of the changes to base rates approved by the Board from 2002 to 2007 including the proposed increase for 2008. Rate changes related to RSA & MTA are not included.

Table 2
Rate Changes for 2002 to 2006 and Forecast 2007 & 2008

Year	% Change Base Rates	
2002	0.56	decrease effective January 1, 2002 (operation of the Automatic Adjustment Formula (“AAF”))
2002	3.68	increase effective September 1, 2002 (Hydro flow-through)
2003	0.15	decrease effective August 1, 2003 (NP's 2003 GRA)
2004	5.56	increase effective July 1, 2004 (Hydro flow-through)
2005	0.54	decrease effective January 1, 2005 (operation of the AAF)
2007	0.61	decrease effective January 1, 2007 (operation of the AAF)
2007	3.83	increase effective January 1, 2007 (Hydro 2007 revenue requirement increase)
2007	10.66	increase effective January 1, 2007 (July 2006 Fuel Rider included in base rates)
2008	2.89	proposed increase effective January 1, 2008 (NP's 2008 GRA)
