

1 **Volume 2, Tab 11 – 2006 Load Research Study**

2

3 **Q. How is the load research equipment being utilized today?**

4

5 A. The load research equipment used in the 2006 load research study remains in the field
6 and continues to collect data.

7

8 Once the 2007 Conservation and Demand Management Potential Study has been
9 completed, and the implementation of new rate designs have been considered,

10 Newfoundland Power will assess its further plans for the use of the load research
11 equipment.
