

Q. Reference: CA-NP-15: Please provide all previous years in which the contribution of NP's costs to the total cost of electricity on a KWh basis exceeded the proposed 2008 NP cost contribution to the total cost of electricity on a KWh basis.

A. Unadjusted for inflation, the contribution of Newfoundland Power's costs to the total cost of electricity on a kWh basis has not, in previous years, exceeded the proposed 2008 contribution.

Adjusted for inflation, the contribution of Newfoundland Power's costs to the total cost of electricity on a kWh basis has, in 2002 and previous years, exceeded the proposed 2008 contribution.
