

- 1 **Q. Reference: CA-NP-87: regarding stationery and copying costs for 2007 as shown at**  
2 **line 20 of Exhibit 2, does that include copies relative to this GRA proceeding? If so,**  
3 **how much of the 2007 expense is attributed to this GRA proceeding? Is NP**  
4 **forecasting bulk purchases of bill forms and envelopes in both 2007 and 2008?**  
5
- 6 A. The stationery and copying budget for 2007, as shown in Exhibit 2, line 20, represents  
7 Newfoundland Power's budget for all stationery and copying needs, including those  
8 related to the General Rate Application (GRA).  
9
- 10 The stationery and copying budget for 2007 did not include an explicit figure  
11 representing paper and copying costs related to the GRA. However, the Company very  
12 roughly estimates the stationery and copying costs associated with the GRA will be  
13 approximately \$13,000.  
14
- 15 Newfoundland Power typically purchases its stationery and copying supplies in bulk.  
16 The Company's stationery and copying forecasts, including its 2007 and 2008 forecasts,  
17 are prepared based on the bulk purchasing of bill forms and envelopes.
