

1 Q. Re page B-92: does Hydro plan to call for competitive bids for the
2 replacement of these devices? What plans, if any, exist for the disposition of
3 the units proposed to be replaced?
4

5

6

7 A. We are in the first year of a five-year publicly tendered contract with a vendor
8 to supply and maintain our multi-function devices. Requests for non-
9 standard printers are tendered as the need arises. As we replace the multi-
10 function devices, they are returned to the vendor as part of the contract
11 agreement. Any smaller, standalone printers are donated to Computers for
Schools at the end of their useful lives.
