

1 Q. Please provide any plans for the training of Hydro personnel to prepare for
2 management of NERC compliance.

3

4

5 A. Various Hydro management have attended NERC awareness sessions and have
6 been familiarizing themselves with NERC compliance. Please refer to Hydro's
7 response to PUB-NLH-157 with respect to the current Hydro reports regarding NERC
8 compliance. Hydro has not yet made its specific plans for direct employee training
9 for NERC compliance, as the overall plan with respect to NERC compliance is still
10 being developed. As the assessment leading to NERC compliance is further
11 advanced, skill gaps and required training will be identified and implemented as
12 required.
