

1 Q. Please describe in detail the power available from Muskrat Falls, on a monthly  
2 basis, in average and dry years, if the courts fail to endorse the interpretation of the  
3 effect of the contract renewal in 2016 set out on page 6 of the Water Management  
4 Agreement Application.

5

6

7 A. The overall power available from Muskrat Falls is unaffected by a different  
8 interpretation of the power contract renewal in 2016. Hydro does not anticipate  
9 the courts failing to endorse Churchill Falls (Labrador) Corporation's interpretation  
10 of the contract and has not done (and cannot do) an analysis on an unknown  
11 interpretation.
