

1 Q. Re: GRK-NLH-31, MF PPA

2 Please explain in detail the consequences under the PPA should Muskrat Falls be  
3 unable to provide, at one time or another, the capacity required by NLH and duly  
4 scheduled according to the provisions of the PPA.

5

6

7 A. Assuming the inability of Muskrat Falls to deliver scheduled capacity is because of a  
8 Forgivable Event and the unavailability results in a capacity shortfall on the Island,  
9 Hydro will follow the processes outlined in Hydro's response to PUB-NLH-217 to  
10 ensure customers on the island continue to receive reliable service. Any  
11 undelivered energy will be rescheduled as soon as practical after supply from  
12 Muskrat Falls is re-established.
