- 3 • Shortening what we understand to be Hydro's estimation of the time for
4 completing required foundational work and generating a list and a
5 structured evaluation of potential demand side options for the short
6 term.

7 What exactly does this "foundational work" consist of, and what is Hydro's estimate
8 of the time required for it?

11 A. It is Hydro's interpretation that Liberty's use of the wording "foundational work" is
12 with regard to the CDM Potential Study to be completed in 2015. The potential
13 study is in progress and being undertaken jointly by Hydro and Newfoundland
14 Power. It is expected to be completed by mid-2015.
