

1 Q. **Re: GRK-NLH-021 rev. 1, GRK-NLH-022**

2 For the hypothetical hourly schedule of NLH's power requirements provided in  
3 response to GRK-NLH-108, and for hourly flows at Upper Muskrat Falls  
4 corresponding to each of the three lines in Figure 4 of Citation 3 of that RFI, please  
5 provide:

6 a) hourly production at Muskrat Falls,

7 b) hourly deliveries to NLH,

8 c) hourly deliveries to Emera,

9 d) hourly market sales,

10 e) hourly deliveries from MFC to CF(L)Co and from CF(L)Co to MFC, under  
11 the Water Management Agreement,

12 f) hourly balance of the CF(L)Co Banked Energy account.

13

14

15 A. With respect to the request for hypothetical information please see Hydro's  
16 response to GRK-NLH-108.

17

18 The production information requested in this request is also hypothetical, given  
19 that storage levels across Hydro's reservoirs, market prices, export opportunities,  
20 and Hydro's load requirements are unknown at this time.
