

1 Q. **Re: GRK-NLH-21, rev. 1**

2 For the precipitation year corresponding to the "Max" line in Figure 4 of Citation 2
3 to GRK-NLH-10X, please indicate, in Excel format:

4 a) the hourly flows recorded at the Muskrat Falls monitoring station,

5 b) the hourly flows that would have been recorded at the Muskrat Falls
6 monitoring station, had the Renewal Contract, as understood by
7 Nalcor, been in effect.

8

9

10 A. In response to part a), hourly flow data is unavailable from the Muskrat Falls
11 monitoring station. Daily data is available from the following location:

12

13 http://wateroffice.ec.gc.ca/search/search_e.html?sType=h2oArc. The station id is
14 03OE001.

15

16 In response to part b), this question is hypothetical. In this regard, please see
17 Hydro's response to GRK-NLH-104. Further, hourly flows at Muskrat Falls are
18 unavailable.
