

1 Q. **Re: GRK-NLH-074**

2 **Preamble:**

3 An analysis is provided to demonstrate that, for the period 2018-2025, sufficient
4 energy resources are available on the Island to supply full load throughout the
5 year, even with the LIL.

6 **Please provide a similar analysis for the period 2025-2040.**

7

8

9 A. An analysis to determine if sufficient energy resources are available on the Island to
10 supply full load throughout the year, even without the LIL, for the period 2025 to
11 2040 is not currently available. Please also refer to Hydro's response to GRK-NLH-
12 097.
