

1 Q. **Re: GRK-NLH-081**

2 **Citation:**

3 ... Hydro and Newfoundland Power will conduct a study of the current potential
4 for conservation and demand management potential. This study is presently
5 underway and is expected to be completed by mid-2015.

6 **Has the "study of the current potential for conservation and demand**
7 **management potential" been completed? If so, please provide a copy. If not,**
8 **please indicate the date when the study is expected to be finalized, and**
9 **provide a copy at that time.**
