

- 1 Q. Please confirm that Hydro's Energy Supply Risk Assessment (ESRA) Report and the
2 Probabilistic Based Transmission Reliability Report by Teshmont use the same
3 assumptions regarding load forecasts, available capacity, unit ratings, reliability
4 criteria, and any other key factors affecting reliability risk assessments. If not,
5 please provide a list of all differences in the assumptions and explain the reasons
6 for each difference.
7
8
- 9 A. Please refer to Hydro's response to PUB-NLH-615.
