

1 Q. Reference: *Probabilistic Based Transmission Reliability Summary Report*, Appendix  
2 A, Page 43 of 56.

3 *“This analysis highlights ML impact on overall system stability under Post-HVDC*  
4 *conditions.”*

5 Other than the physical reliability data used in the Teshmont assessment, what  
6 factors or circumstances might prevent the 300 MW from ML from being available  
7 to Hydro?

8

9

10 A. Please see Hydro’s response to PUB-NLH-620.
