

1 Q. Provide a detailed explanation of Hydro's emergency preparedness plan if different
2 than the plan described in PUB-NLH-30.

3

4

5 A. In the response to PUB-NLH-030 Hydro referenced operational readiness activities
6 that are undertaken by Hydro in preparation for an adverse weather or system
7 event. All of these activities were undertaken as a response to the system supply
8 issues and outages experienced in December 2013 and January 2014.

9

10 In addition to the activities referenced in PUB-NLH-030 Hydro follows a Corporate
11 Emergency Response Plan (CERP), which outlines specific responsibilities for the
12 provision of corporate emergency support during an operations emergency
13 situation.
