

1 Q. Please describe Hydro's subtransmission line inspections and pole treatments  
2 policies and practices. In the response include who conducts the inspections  
3 treatments, how the inspections and the resulting repairs are tracked, whether  
4 Hydro has a formal policy indicating the number of inspections to be completed  
5 each year and the expected inspection completion rate, the level of management  
6 who monitors the completions consistent with policy and/or schedules and the title  
7 of the person held accountable for the completion of the inspection work  
8 consistent with the policy and the schedule.

9  
10

11 A. Hydro does not have any equipment it classifies as subtransmission. Please refer to  
12 Hydro's response to PUB-NLH-187 for further explanation.
